Chief Beatty was called to the Wil-lows on Wednesday night through a complaint that a horse had been left standing near the railroad crossing for nearly nine hours while its driver was in Lowell on business. He found the animal about nine o'clock that evening it having been left there at noon, and took it to Whitney's stable, where it was recovered by the driver later. There have been cases of this kind in the past where horses have been left standing for a longer period in cold and stormy weather at the Willows, but after publicity had been given the fact the practice was stopped. The driver's name is withheld for good reasons, but he was given to understand by Mr. Beatty that if the practice happened again he would be summoned into court. Arthur W. \$2200. This company had its headquarters in Ayer for a short time to make an ab-solutely sanitary tooth brush and the machine to manufacture them was in-vented by Lyman Chandler two or three years ago. John H. Trayne of Groton was one of the promoters and from here the company located in Worces-ter. The company, it is said, was not successfully managed. although the tooth brush today is ahead of anything on the market.

Fire.
An alarm from box 7 which was repeated a few minutes later from the same-box at the corner of Pearl and Groton streets at two o'clock on Monday morning called out the firemen to a fire in the house owned by L. W. Phelps, which was formerly occupied as a junk shop by the late Raymond G. Kelleran on Groton street. Since Mr. Phelps bought the property he has had it remodeled into a tenement house. At the time of fire there was but one family occupying the house, that of P. T. Dix, who moved here from Fitchburg a few months ago, he being employed as a fireman on the Baston and Maine railroad. At the time of the fire he was the only occupant of the house, his wife and child being away on a visit at the time. Mr. Dix, who was asleep in the upper part of the house about the lower part of both legs and was also greatly unnerved by the experience. In a few seconds the whole interior of the upper stories were in flames. Mr. Dix managed to save a part of his furniture, although practically all of it was left in the house. As Herbert Stearns turned the cor-ner by the drug store while driving home from Nashua last week Thurs-day evening, he suddenly heard a crackling, swishing sound and had hardly turned his head to ascertain the cause when the large electric light pole near the sidewalk at the corner of Mrs. A. D. Fessenden's lawn and opposite the drug store fell with a crash, striking between the horse and buggy, the pole and its en-tanglement of wires severely bruis-ing and burning Mr. Stearns upon his face and head. He was thrown out but managed to hang onto his horse. The buggy was quite badly smashed up. Dr. Ely was sent for and dress-ed the burns and he is about although feeling pretty well shaken up. It was a lucky escape from more serious in-juries. uries.

Glichrest, which abounded in bright sallies of wit and with the prophetic eye raw his classmates in 1925 as thought their-natural tendencies might lead them. As this young man has been quite out of health for several weeks, it was only by sheer force of will, otherwise known as "clear grit." that he was able to carry out his part of the pro-gram which he did in a most creditable manner, winning earnest encomiums and may flowers. George C. Johnson was the next es-sayist with "Our future transporta-tion." for his subject. He treated of the airship, dirgibles, bi-planes, mono-planes, etc., but argued that the safest method of navigating the air was by the combination of a number of air ships as those in present use. Each one of the teachers, many of the schoolmate's, the school committee and others were 're-membered generously. The deviser was frequently interrupted by hearty ap-plause as the audience 'saw the ap-propriateness of the bequests. All the kraduates were liberally remembered with howers and Miss Lawton at the close of the "will" was equally reward-ed.

ed. Supt. Herman C. Knight then came-upon the platform and in a few well chosen words conferred the diplomas. After the floor was cleared a receiving line was formed consisting of the teachers, superintendent and the grad-uates. Congratulations were tendered and fruit punch served, after which Wilson's orchestra furnished music for dancing until a late hour.

Church Federation News. A committee was chosen several weeks ago, consisting of members of the Unitarian. Congregational and Methodist churches to make all ar-rangements for holding a union church and Sunday school picnic. After can-vassing all available places where pic-nics have been or might be held the committee selected Nabnasset trotting park, where the picnic will be held on Thursday, July 10. Silver Lake could not be obtained earlier than July 22, and if the picnic were held too, far away that fact would deprive many of the children of the pivilexe of this entoyment. The committee did the very best they could after canvashing the entire situation, and believe this will give an opportunity for a town picnic not only for those who attend Sunday school, but for all the protes-tant tamilies in town. The following committees have been chosen: Mrs. Addison Woodward, Mrs. Elizabeth Heald, Mrs. H. M. Tower. Mrs. T. C. Hayes, Miss Heien L. Law-rence, Mrs. J. E. Andrews, dimer-Forest andrews and Revs. R. W. Draw-bridge and D. R. Child, sports; the superintendents of the three schools, finance: P. C. Hayes, boat committee.
